

Firewise Tips #1

- Clear leaves and other debris from gutters, eaves, porches and decks, this prevents embers from igniting your home.
- Remove flammable materials (firewood, propane tanks, dry vegetation) within 30 feet of your home's foundation and outbuildings, including garages and sheds. If it can catch fire, don't let it touch your house, deck or porch.
- If you have trees on your property, limb them up so the lowest branches are 8 to 10 feet from the ground.
